Bikaner, Rajasthan | +91 8949687092 | diwakarpratham7619@gmail.com | LinkedIn | GitHub

Professional Summary

Entry-Level Trainee Engineer and 2025 B.Tech Computer Science graduate with hands-on experience in data analysis, workflow automation, reporting, documentation, and database management. Skilled in Python, SQL, Excel, PostgreSQL, and business reporting. Demonstrated ability to maintain data accuracy, identify discrepancies, support issue resolution, manage records, and perform technical tasks in collaborative environments. Strong verbal and written communication, attention to detail, multitasking, and problem-solving abilities.

Education

Bachelor of Technology (Computer Science and Engineering)

2025

Engineering College Bikaner

CGPA: 7.98/10

Technical Skills

Programming: Python, SQL

Databases: PostgreSQL, MySQL, BigQuery

Tools: Excel, Tableau, Power BI, Git, GitHub

Technologies: n8n, Workflow Automation, OpenAI APIs, Gemini APIs, OCR

Core Competencies: Reporting, Documentation, Record Keeping, Data Validation, Data Accuracy, Issue Resolution Support, Technical Support, Communication, Attention to Detail, Team Collaboration, Multitasking

Experience

Data Science Intern — PERSONIFWY (Remote)

2025

- Analyzed structured datasets using Python, Pandas, and NumPy to improve reporting accuracy and operational insights.
- Reviewed and validated data across 5,000+ records to identify discrepancies and maintain data quality.
- Supported preparation and distribution of analytical reports for business stakeholders.
- Assisted with issue identification, troubleshooting, and escalation of data inconsistencies.
- Collaborated with cross-functional teams while managing multiple analytical tasks and deadlines.

Data Analytics Intern — Skillified Edtech

2025

- Built Tableau and Power BI dashboards to support reporting and business operations.
- Cleaned, processed, and validated datasets using SQL and Python.
- Maintained documentation and reporting workflows to improve operational efficiency.
- Supported business decision-making through accurate data analysis and reporting.

Projects

Receipt & Invoice Extraction Automation System

- Developed an OCR-based workflow for extracting structured information from invoices and receipts.
- Implemented data validation, documentation, record keeping, and error handling processes.
- Improved reporting accuracy through automated data extraction and verification.

Gmail Classification & Inbox Automation

- Built an AI-powered workflow to classify emails and support communication management.
- Implemented automated routing, issue detection, and structured record management.

Job Analytics & Market Intelligence Pipeline

- Automated collection, review, and reporting of hiring trends and market insights.
- Generated structured reports supporting data-driven decision-making and business analysis.

Certifications

- Data Analyst - Big 4 Ready (OneRoadmap)
- Data Analytics Simulation (Deloitte)
- Data Science Certification (1Stop.ai)

Additional Information

- Eligible 2025 graduate for entry-level Trainee Engineer opportunities.
- Strong verbal and written communication skills.
- Demonstrated attention to detail and commitment to data accuracy.
- Able to prioritize tasks, multitask effectively, and learn new technologies quickly.
- Available for on-site opportunities and collaborative team environments.
